

Hazem Mohamed Bahig

Current Job : Associate Professor of Computer Science
Information and Computer Science Department, College of Computer
Science and Engineering, Hai'1 University, KSA

E-mail : bahig@uoh.edu.sa.

Specilization : High Performance Computing

Education (Higher Degree)

1. B.Sc. in Pure Mathematics and Computer Science, excellent with honor degree, May 1990. Faculty of Science, Ain Shams University, Cairo, Egypt.
2. M.Sc. courses in Computer Science, Oct. 1991- Sept. 1992, Faculty of Science, Ain Shams University, Cairo, Egypt.
3. M.Sc. in Computer Science, 10/1997, Faculty of Science, Ain Shams University, Cairo, Egypt.
4. Ph.D. in Computer Science, 11/2003, Faculty of Science, Ain Shams University, Cairo, Egypt.

Research Interest

- High Performance Computing.
- Design and analysis of algorithms.
- Discrete Mathematics.
- Computational Science
- Optimization
- Bioinformatics.
- Cryptographic algorithms
- Intelligent Techniques for Computational Science, especially for optimization.
- E-learning System for algorithms.

List of Scientific Publications

1. Abdelsalam, K.M.K., Khamis, S.M., Bahig, H.M., **Hazem M. Bahig**. A multicore-based algorithm for optimal multi-way number partitioning. *International Journal of Information Technlongy*,15, 2929–2940, 2023.
2. **Hazem M. Bahig**, Khaled A. Fathy. Sequential and parallel sliding window algorithms for multiplying large integers. *Journal of King Saud University - Computer and Information Sciences*, Vol 35 (3), 131-140, 2023.
3. **Hazem M. Bahig**, Mohamed A. G. Hazber, Khaled Al-Utaibi, Dieaa I. Nassr, and Hatem M. Bahig. 2022. "Efficient Sequential and Parallel Prime Sieve Algorithms" *Symmetry* 14, no. 12: 2527.
4. Suha S.A. Shokr, **Hazem M. Bahig**. A Fast Multicore-based Window Entropy Algorithm. *International Journal of Advanced Computer Science and Applications(IJACSA)*, 13(11), 2022.

Projects

1. Design an efficient strategy to detect DNA motifs using soft computing techniques, (Hail University, Co.I, 2011).
2. Design a fast merging algorithm on parallel model, (Hail University, PI, 2013).
3. Design a visualize software for algorithm course, (Hail University, CoI, 2013).
4. An efficient algorithm to reconstruct the location of restriction sites in DNA, (Hail University, PI, 2016).
5. An efficient minimal length addition chain on multi-core system, (KACST, PI, 2016).
6. Improved Integer Factorization Algorithm Using High Performance Systems (Hail University, PI, 2019).
7. Uses of Artificial Intelligence in Encryptions (Hail University, PI, 2020)
8. Design and Cryptanalysis of some cryptosystems (Hail University, PI, 2021)
9. An Improved Entropy-based Malware Analysis Method (Hail University, PI, 2022 – Posgraduate Students)
10. An Intelligent Technique for Outsourcing Protocols Based on Group Exponentiation (Hail University, PI, 11/2022).
11. An Efficient Parallel Technique for Matching Strings. (Hail University, PI, 11/2022).
12. Optimize Factoring Method and Its Applications. (Hail University, PI 8/2023)
13. Improving the Performance and Attack of Cryptographic Systems and Protocols (Hail University, PI 8/2023)

M.Sc. Students

1. Ibrahim Gad . Resresearch area is parallel algorithms (Factorization).
2. Khalid Fathy. Resresearch area is parallel algorithms (Addition chain & Parallelism).
3. Mostafa Abbass Resresearch area is bioinformatics algorithms (DNA Motif).
4. Tarek Genawy . Resresearch area is bioinformtics algorithms (RNA Comparison).
5. Kamel Abdelsalam . Resresearch area is parallel algorithms on optimization problems.
6. M. Aref. Research area is cybersecurity.
7. S. Shukr. Research area is cybersecurity.

Ph.D. Students

1. Khalid Fathy. Resresearch Area is parallel algorithms (Modular exponentiation).
2. Mostafa Abbass Resresearch Area is bioinformatics algorithms (DNA Motif & Parallelism).

Training in Development Academic Staff

1. Preparation of a research project. (3 days)
2. Credit hours system. (3 days)
3. Management of scientific research. (3 days)
4. Ethics of scientific research. (3 days)
5. Communication skills in different types of education. (3 days)
6. Organization of scientific conferences. (3 days)
7. International publishing for scientific research (2 days)

- | | |
|---|----------|
| 8. University administration. | (2 days) |
| 9. Strategic planning | (2 days) |
| 10. Time management and meetings | (2 days) |
| 11. Financial and legal aspects in the university works | (2 days) |
| 12. Problem solving and decision making | (2 days) |

Workshops in Quality Assurance

- | | |
|--|----------|
| 1. Academic standard. | (1 day) |
| 2. Course specification and report. | (1 day) |
| 3. Local Accreditation Requirements | (2 days) |
| 4. International Accreditation Requirements. | (2 days) |
| 5. Measurement of intended learning outcomes of courses in the electronic form | (1 day) |
| 6. Standards, mechanisms and practices for quality. | (1 day) |

Scientific Workshops

1. Grid Computing and Distributed Object-Oriented Parallelism. Jan 4, 2006, American University of Beirut, Lebanon.
2. MIMD Programming, Jan 5, 2006, American University of Beirut, Lebanon.
3. High Performance Computing: LINKSCEEM, Jan 28, 2010, Nile University, Egypt.
4. Workshop on Intelligent System and Application, March 6, 2010, Al-Fayoum University.
5. 99Developing research skills in the Kingdom: from the idea to the output, 2014.
